Due to the extremely low income definition changes for HUD, the typical family size adjustments are no longer sufficient to determine the level of extremely low income limits. The poverty guidelines have fixed dollar amount adjustments between household sizes. Therefore, the actual amounts shown for 1-to 8-person families will not necessarily follow the typical percentages. For families with more than 8 persons, HUD has developed a tool that should be used to calculate the extremely low income limit: <http://www.huduser.org/portal/datasets/il/il16/index.html>.

Please use the FY 2016 Income Limits Documentation system, pick the area in question, and select "Click Here" under the label "Extremely Low-Income Limits." Near the bottom of the explanations, there is a drop down box to select the number of household members needed (from 9 to 20).
