

Questions and Answers for Request for Qualifications (RFQ) 2011-01
Energy Consumption Provider Services

Question 1:

Does the engineer or the company need to be registered in the State of Florida?

Answer:

Section Six B.1., of the RFQ requests that you provide evidence that the legal entity (i.e., corporation, partnership, limited liability corporation) is qualified to do business in the State of Florida from the Florida Department of State. If an individual, that a copy of the business license in the local jurisdiction in Florida in which you conducts business is provided.

Question 2:

Can you be more specified regarding the definition of Qualified Professional?

Answer:

The Florida Department of Community Affairs has stated that the Class 1 Rater is a designation regarding energy rating. The designations are Class 1 Existing Residential Rater, Class 1 New Residential Rater and Class 1 Rater which includes commercial buildings.
