

## Eligibility for the Live Where You Work Goal in RFA 2017-107

To qualify for the Live Where You Work goal, developments must be within a specified distance to cities with both quartiles numbered either 1 or 2 below.

To better target funding to areas where it may be hard to live where one works, cities are sorted into quartiles by LOWER proportions of lower income households and HIGHER proportions of selected service jobs. INCOME: The proportion of households with incomes at or below 0-80% AMI living in the city limits compared to all households in the city. JOBS: The proportion of jobs in Retail, Accommodations and Food sectors in the city compared to all jobs in the city.

City	County	0-80% AMI Households as a % of All Households in the City (lower % in lower quartiles)		Retail/Accommodations/Food Service Jobs as % of All Jobs in the City (higher % in lower quartiles)	
		Proportion	Quartile	Proportion	Quartile
<b>Cities Eligible under the Live Where You Work Goal</b>					
Altamonte Springs	Seminole	33.0%	1	36.5%	1
Apopka	Orange	34.8%	2	28.0%	2
