Subject: Re: Elderly Housing Community Loan - feedback requested

Dear Mr. Price:

Regarding your request for comments on EHCL program funding. After reviewing the Florida statutes regarding this funding we suggest you consider allowing a new project to submit an application even though the preference is for older projects. We suggest that you open the RFP to all elderly non-profit projects with the specific needs outlined in the statute, but give first funding preference to older projects and if you don't receive sufficient applications then fund new projects.

Thank you for the opportunity to comment.

Sincerely, Doug

Doug Mayer, President
