Work Description

Up to (8) hours Professional Services to update the existing 'OnBase Integration Service' so that any alphanumeric Keywords longer than its maximum allowed number of characters are automatically and silently truncated to store only the first characters up to that maximum amount. FHFC will accept responsibility then for any "data loss" that may occur as a result of losing Keyword Value data after the 'Keyword data length' number of characters. Update both the "Upload Document" and "Update Document" functions.
