Subject: Public Comment on behalf of the Coalition of Affordable Housing Providers

Steve/Kevin,

The Coalition of Affordable Housing Providers (CAHP) met on June 20 and voted unanimously to request that Florida Housing reduce the minimum proximity scores across all counties in order to increase the number of sites that may qualify for funding. This would help reduce land costs for potential affordable properties that have become too expensive to secure for application purposes.

Thank you for your consideration.

Jeff Kiss
Vice-Chairman
CAHP
