**Subject:** RFP Comments

Kevin,

Both current RFPs have the following statement:

(2) Within 21 Calendar Days of the date of the invitation to enter credit underwriting:

- (a) A letter from the Local Government confirming the following for the entire Development site, including confirmation that these items were in place as of the Application deadline: that the site plan has been approval, that the site is appropriately zoned for the proposed Development, and that roads are available to the proposed Development;  
On third line change "approval" to "approved".

It would seem appropriate for any site plan approved by application deadline be a preliminary or conceptual site plan. If a final site plan is desired, remove it from this section and make it required during credit underwriting as it has been in the past.

Thank you for your consideration.

Bob Colvard
