**Subject:** 2014-114 Small County Funding Goals

Ken,

Upon further review of the latest draft of the 2014-114 Small/Medium RFA I have a concern as it relates to Section Four B. 5.b Small County Funding Goals.

The Goal states that small counties that have received an award since 2010 will be counted toward the County Award Tally. While I agree that spreading resources to Counties that have not received funding for a period of time is a worthy goal, I am concerned that going back to the 2010 funding year is too long a period to use as a bench mark.

The latest FHFC Proximity List only goes back to 2011. Sites were chosen, contracts executed, and money has been spent on those sites based that Proximity List. It seems unfair to change site selection dynamics this late in the process.

I recommend that the funding year for this section be amended from 2010 to deals funded in 2011 to match the current Proximity List.

Thank you for your consideration.

Bob Colvard
