Subject: Comment for Preservation RFA 2015-111

Ken and Kevin,

Thank you for the workshop today and discussing the upcoming Preservation RFA 2015-111.

Section 4.B.6.d. Selection Process currently reads: *"If funding remains and no eligible unfunded Non-RD Development with the Demographic of Elderly (ALF or Non-ALF) or Person with a Disability can be fully funded, then no further Application will be selected for funding and the remaining funding will be distributed as approved by the Board."*

Due to the 100% funding test requirement in this RFA, there will be remaining funds.

Please allow **any** eligible Development that can meet the 100% funding test to receive the remaining funds.

Section 4.B.6. d. Selection Process would read: *"If funding remains and no eligible unfunded ~~Non~~-RD Development with the Demographic of Elderly (ALF or Non-ALF) or Person with a Disability can be fully funded, then no further Application will be selected for funding and the remaining funding will be distributed as approved by the Board."*

This change does not give RD developments any preference it simply allows for remaining funds to go to the next eligible development that can meet the 100% funding test.

Thank you!!

Angela F. Hatcher
