Subject: RFA 2022-205/URA Submittal Requirements

In the draft of RFA 2022-205, Attachment 17 requires that “a list of all occupied units and tenant income certifications” be included as part of the application. Given that these applications are posted to FHFC’s website, this information about current residents will be easily accessible to the public. Can the documentation requested in Attachment 17 be required as a 21-day item to the underwriters as opposed to being submitted in the initial application?

Thank you.
